About Us

We are a company dedicated to the development, manufacturing, and packaging of advanced nutrition products for crops.

In our extensive facilities, we currently **manufacture, package, and market** our product lines to more than 30 countries.

Additionally, the daily work of our research team ensures effective formulations in our Fruticrop products.

Our company has launched the CROP NATURE product line, which has made us pioneers in R&D&I. Thanks to cutting-edge biotechnology, we manufacture advanced nutrition products that are effective for the protection and nutrition of your crops, environmentally friendly, and preserve the health and balance of the soil and the environment in which they are grown, being sustainable for our ecosystem.

Quality Control

Our team and advanced equipment test all incoming raw materials to exclude any negative or low-quality ones, which may contain harmful heavy metals or radioactive elements that could be dangerous for plants or our own health. The Quality Control department provides guidance and corrections throughout the production process by measuring all elements during manufacturing, within the production lines until they reach the stores as final products.

We check all manufacturing processes and the quality of finished products to ensure the reliability of their characteristics according to international standards and to meet the expectations of our customers.

Our Facilities

Our facilities, with over 20,000 square meters at your disposal, include:

- Laboratory
- Offices
- Storage and quality control of raw materials
- Manufacturing, quality control, and packaging of our products
- Loading warehouse..

ATTRACTANTS

Adiá de hoy, en los cultivos hay una gran pérdida en la cosecha debido a las picaduras de diversos tipos de moscas que perjudican y deterioran considerablemente la calidad de los frutos. Entre los tipos de moscas, la más conocida y temida es la *Ceratitis Capitata*. En Fruticrop desarrollamos una gama de productos específicos con el fin de disminuir notablemente el porcentaje de fruta picada, basados en atraer estos insectos mediante atrayentes biológicos. También estamos en continua lucha contra la mosca común o doméstica, que es una gran molestia en nuestros propios hogares, granjas, tiendas de alimentación, etc. Desarrollamos productos 100% libres de insecticidas.

TRAP CROP360

Specific food attractant for capturing *Ceratitis capitata*. 100% ecological

Composition

Guaranteed Analysis	% w/w
Hydrolyzed Proteins	36,0% (360 g/L)

Density: 1,23 gr/cc

pH: 6 - 7

Packaging

CROP TRAP

Atrayente alimenticio específico para captura de *Ceratitis capitata*. 100% ecológico

Composition

Guaranteed Analysis	% w/w
Hydrolyzed Proteins	5,5% (59 g/L)
Density	1,00 gr/cc
pH:	6 - 7

Packaging
