About Us

We are a company dedicated to the development, manufacturing, and packaging of advanced nutrition products for crops.

In our extensive facilities, we currently **manufacture, package, and market** our product lines to more than 30 countries.

Additionally, the daily work of our research team ensures effective formulations in our Fruticrop products.

Our company has launched the CROP NATURE product line, which has made us pioneers in R&D&I. Thanks to cutting-edge biotechnology, we manufacture advanced nutrition products that are effective for the protection and nutrition of your crops, environmentally friendly, and preserve the health and balance of the soil and the environment in which they are grown, being sustainable for our ecosystem.

Quality Control

Our team and advanced equipment test all incoming raw materials to exclude any negative or low-quality ones, which may contain harmful heavy metals or radioactive elements that could be dangerous for plants or our own health. The Quality Control department provides guidance and corrections throughout the production process by measuring all elements during manufacturing, within the production lines until they reach the stores as final products.

We check all manufacturing processes and the quality of finished products to ensure the reliability of their characteristics according to international standards and to meet the expectations of our customers.

Our Facilities

Our facilities, with over 20,000 square meters at your disposal, include:

- Laboratory
- Offices
- Storage and quality control of raw materials
- Manufacturing, quality control, and packaging of our products
- Loading warehouse..

fruticrop
NUTURING FUTURE

ECOLOGICAL

Our range of products for organic agriculture is designed to promote sustainable and environmentally friendly farming. We offer a wide range of organic fertilizers and natural phytosanitary solutions, developed with the highest technology and based on ecological principles. Our mission is to provide tools that enhance crop productivity without compromising soil health or biodiversity, in line with the adoption of agricultural practices that protect the planet and ensure healthy and abundant harvests.

ECOLOGICAL

CROP ORGANIC 850 BIO

100% natural liquid organic matter. Certified for organic agriculture.

Composition

Organic material	85,93% w/v	Magnesium (MgO) soluble in water	0,038% w/v
Organic Carbon	49,10% w/v	Calcium (CaO) soluble in water	0,44 % w/v
Total humic extract	78,10% w/v	Water-soluble copper (Cu)	0,01 % w/v
fulvic acid	78,10% w/v	Sulfur (S) soluble in water	0,18% w/v
Proteins (total amino acids)	14,1% w/v	Density: 1.338	
Total Nitrogen (N)	2,27% w/v	pH 6-7	
Potassium Oxide (K2O) soluble in water	3,82% w/v		
Phosphorus Pentoxide (P2O2) soluble in water	0,133% w/v
